

Hearing Loss Association of Central MA

35 million of us have some form of hearing loss... We get together to share and help.

The presenters will be Ellen Perkins, at right and Margaret Myatt, left. Ellen is a Hard of Hearing Skills Trainer at Center for Living and Working in Worcester, MA. Margaret serves on the chapter's steering committee. Both have completed HLAA's Hearing Assistive Technology (HAT) Seminar.

Next Meeting... Saturday, April 7, 2018 10-12 noon
at the Northborough Free Library, • 34 Main Street, Northborough

TOPIC: Assistive Technology for People with Hearing Loss
SPEAKERS: Ellen Perkins and Margaret Myatt

Program Summary

There are times when hearing aids or a cochlear implant may not be enough to help us in listening situations. For example, are you able to hear everything in a staff meeting at your place of employment; are you able to fully use the telephone or participate in a community meeting and many more situations? Hearing technology can help

You will learn...

- Why understanding your needs in the workplace and effective self-advocacy are so important.
- Some concrete strategies you can use to ensure communication access at work.
- How to describe your own hearing journey in language that others without hearing loss will understand.

Please come and bring your questions and thoughts. The parking lot is behind the library, accessed via Patty Lane. For more information please visit <http://www.northboroughlibrary.org/hours.asp>
